LIFT
UPT 150

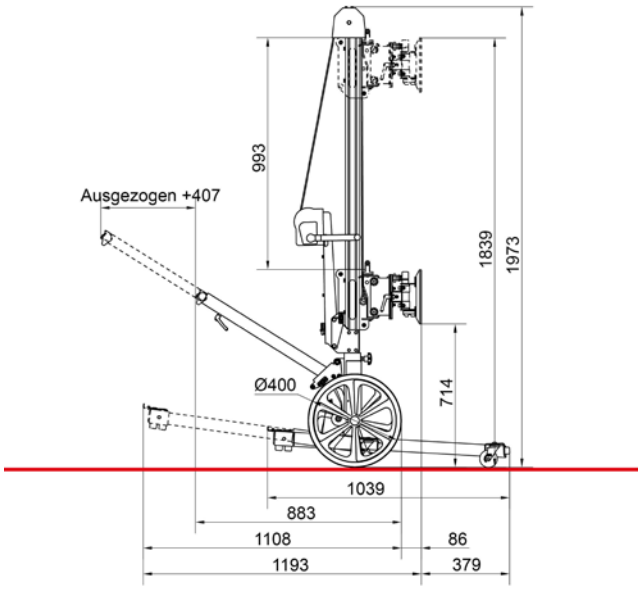

The UPT150 transport helper is a manoeuvrable 1-man glass installer for doors, windows, glass, metal and wood on the construction site. With this versatile assembly machine, transporting building elements is child's play and as a window transporter it is not only popular with glaziers.

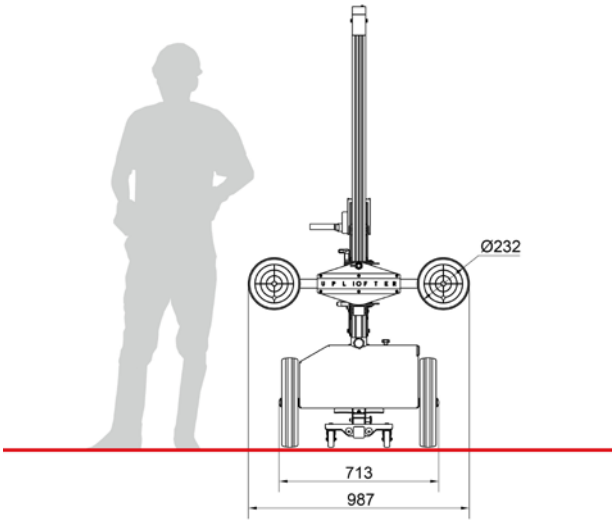

This one-man operated glazing machine provides a reliable, efficient and safe method of handling smooth, non-porous material of any kind, such as glass, metal, stone, plastic, slate, boards or laminate. This lift is ideal for transporting through doorways and for glazing in small confined areas.

- Max. load 150 kg
- Silicone-free suction plates (no marks)
