LIFT

UPT 250

The UPT250 glass assembly tool is a manoeuvrable glass handling tool for doors, windows, glass, metal and wood on the construction site. With the versatile assembly tool, transporting construction elements is child's play.

The UPT250 can lift and lower loads up to 250 kg and is not only popular with glaziers as a window transporter. This one-man operated glazing machine provides a reliable, efficient and safe method of handling smooth, non-porous material of any kind, including glass, metal, stone, plastic, slate, boards or laminate.

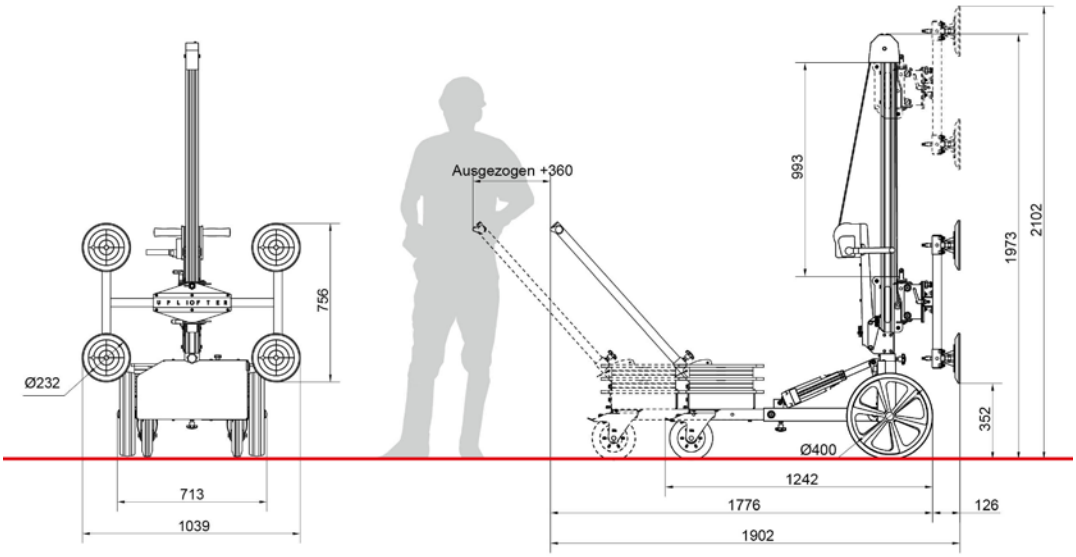

- Load capacity max. 250 kg
- Silicone-free suction plates (no marks)
- Optional electric winch for lifting and lowering
- Uncomplicated and quick assembly/disassembly
- Total width: 713 mm without vacuum system
- Turns elements up to 2,500 mm long
- Mast can be swivelled by 90°
- Mast can be tilted by + 7° and - 30
- Manual side shift (+/- 55 mm) optional
- Own weight approx. 240 kg
